Geo. Derbyshire And Adam Wilson Honored

Given Presentation by International Officials; Presented With Set of Pipes and Desk Set Respectively.

Tribute was paid to two of their number in the Italian hall on Saturday evening, when officials of International Coal & Coke Co. gathered together at a social evening. Mr. George Derbyshire, an employee of International since 1907 and who retired in August of this year, and Adam Wilson, who entered the company's employ in 1924, Joe Emerson was chairman.

The evening's activities opened with the singing of Canadian songs. The tables were attractively attired by Messrs. A. DeLuca and R. Johnson, who saw to it that there was always a plentiful supply of hotdogs, beans, mustard and Pepsi-Cola on hand.

The honored guests were called to the table of mining superintendents, Jim Keck, who seated his guest at the head of two of his faithful employees, and on behalf of the officials presented Mr. Derbyshire with a set of pipes and Mr. Wilson with a handsome desk set. Both men thanked the gathering for the kind remembrance shown them.

General Manager J. J. McIntyre paid tribute to the guests for their faithful service to the company and wished them health and happiness for the future.

The evening was enjoyed with songs and musical selections, artists being Donald Graham and Gordon Ross. Mr. John J. Johnson, Kropf, Alf. Phillips, A. DeLuca, Bert Bond, Adam Wilson and Jimmy Moore, who proved himself to be still master of the bagpipes.

Mr. Derbyshire entered the company's employ in 1907 as a miner and 22 years ago received the position as washhouse attendant. He remained in this position until his health forced his retirement in August.

Mr. Wilson entered the company's employ in 1924. A year later he received a washhouse attendant which kept him out of the mine for some time. When he resumed work with the company it was as a hoistman, then pumpman, and several years ago he was appointed company timekeeper, a position he held until securing his release a few weeks ago.

Red Cross Blood Clinic to Visit Here Dec. 5, 6, 7

Many Names Already Secured;
Need Between 255 and 300;
Depots Set Up to Receive
Names of Volunteers.

The campaign to secure names of volunteers to the Red Cross Blood Clinic which will be held on Dec. 5, 6 and 7 is now on in earnest. A full page advertisement in the interest of the cause appears in this issue, sponsored by local business houses, the town and by the Coleman branch of the Red Cross, as well as its kid brother (or sister), the Junior branch of the Red Cross from the Cameron branch.

Depots for receiving volunteers' names are at: The Journal office, Coleman Hardware & Furniture Co., and Miss Yuill, at Cameron school. Many names have already been secured, but many more volunteers before it will be worth the time and expense of bringing the clinic to Coleman. There is still a month to go, but those desiring to give some blood to the clinic and from them to the various war fronts to aid the Allied wounded, should give their names as soon as possible. The Red Cross Blood Committee may be better able to record the progress of the campaign. Give your name today.

Giving blood is painless and there will be a doctor and nurses in attendance.

MAY ORGANIZE LACROSSE HERE SOON

Coleman Lions are interested in creating interest in lacrosse in Coleman, and correspondence is being entered into with the Canadian Lacrosse Association to further this end.

Equipment will be secured and should the Lion clubs in Blairmore and Bellevue also organize lacrosse clubs, it is expected that a Pass league will be created.

If the group agrees to other plans than to pick up the slack between summer and winter sports, it will be something worth while.

An announcement as to the local club's progress with the Canadian association should be forthcoming within a few weeks.

Miss Tessie Bagley Addressed Lions Club On Monday Evening

Miss Tessie Bagley, of Bagley's Ranch near Sentinel, had the honor of being the first young lady to address Coleman Lions Club since its inception four years ago.

Miss Bagley gave a display of several beautiful water color and oil paintings done by artist Roland Gissing on a number of local scenes. Mr. Gissing is a gifted artist and his paintings are highly admired by the gathering.

Miss Bagley described a number of the paintings and the locale where they had been painted.

Following the exhibition of pictures she gave an interesting talk on ranch life from the very early days of the ranching era. She described the difficulties the early ranchers experienced from severe winter, wolf and rustler attacks, from squatters up to the present time where the rancher has a ceiling on his stock, but lacks a price floor.

Her invitation to visit the Bagley Ranch in the near future was accepted by President A. Balloch on behalf of the club. It is expected that next Spring the Lions and their families will journey out to the Bagley Ranch for a picnic and have the pleasure of being shown around the ranch by Miss Bagley.

Bellevue Organizes A Lion Club

Al. Hayson Its First President;
Coleman Club To Attend Its
First Meeting Friday Evening.

The Bellevue Lions Club was organized Sunday afternoon, with a most satisfactory charter membership. This club was organized under the sponsorship of the Coleman Lions Club, which club will meet with its progeny on Friday evening in the Catholic hall, Bellevue, for the first regular meeting.

The officers were elected for the balance of the fiscal year: Alvin G. Hayson, president; Ralph Mun, first vice-president; Walter R. Warn, lion tamer; Milton Congdon, tail twister; Leslie Topley, secretary-treasurer, and James Allsop, John Kubasek, William Alexander and Reg. Hughes as members of the board of directors.

President Hayson has appointed the following chairmen to service until charter night—date not yet set: Percy L. Lether, charter night chairman; Alvin G. Hayson, membership chairman; Stanley H. Webster, finance chairman, and Ralph Mun, constitution and by-laws chairman.

The Bellevue Lions Club is the third such organization in the Crows Nest Pass district, Blairmore Lions Club having been organized Oct. 20. The Coleman Lions Club has been in existence for a number of years, with great credit to itself and with profit to its community.

Present indications are that the Bellevue Lions Club will become quite active and will back a number of meritorious activities in the near future.

Local Polish Committee Seeks Used Clothing

"WE APPEAL... FOR SPEEDY AND GENEROUS AID!"

The following cable was received by the Polish Weekly Chronicle from Dr. Jerzy Mokryski, assistant to the Polish Bureau of Labor, Relief and Public Health of the Polish Committee of National Liberation in Lublin:

"Five years of German domination on Polish territory was connected with long continued undernourishment of considerable part of the Polish people, especially the urban population.

"Undernourishment, which continued over a period of several years, resulted in unprecedented rises in death rates. Poles starved to death in enormous numbers, cases of death from hunger. Shortage of food had especially devastating effects on children. As a result of systematic undernourishment enormous part of children were stunted from birth. Children were completely deprived of such essential products as milk, fruit, vegetables and eggs.

"Fportion of wearing apparel is even more acute. Only very few people were in position to buy new clothing. Overwhelming majority of population were outpatched and made do with what they salvaged from time to time which had not yet been sold for products. So that after five years of occupation, clothing of considerable part of population consist of rags.

"Germans sent punitive expeditions to many districts, especially in Lublin, Kielce and Bielsko. People were forced to work in mines or were forced to the ground when men were shot or sent to concentration camps where part of them were sent to Germany. In other instances entire population was exterminated. Children were not spared. Survivors of these painful experiences have had to live in primitive huts, converts, exhibitions, scholarships, etc.

"Plans will also be discussed for measures designed to further the friendship now existing between Canada and Russia, as well as organizing direct assistance to people in war-torn areas of the Soviet Union.

"Organized over two years ago, the Federation of Russian-Canadians and its affiliated church and Doukhobor associations, now represent more than 15,000 Russian-Canadians. In addition, a number of smaller Russian church and cultural organizations are affiliated with the federation.

"It is estimated by the national office of the federation that more than 60 per cent of all Russian-Canadians will be represented at the congress. (Russian farmers, including Doukhobors, number about 32,000 in Canada. Largest population in urban centres is close to 10,000.)

"In the two years since its formation, the federation and its affiliated organizations have sent more than \$750,000 in money and clothing to Soviet war aid. In addition, they have sent nine ambulances, 680 hospital beds, linen and blankets, etc.

"According to material collected by the Polish organizations for public aid which were formed in the period of occupation, at the present time on liberated territory of Poland at least one million and two hundred thousand Poles are in need of help. This figure consists mainly of children, incapacitated and part of adult population deprived of means of livelihood, including prisoners who were freed from German prisons and camps.

"Warsaw is included in places which will receive aid. In view of the colossal destruction and interruption of food transports to the city during the recent weeks, Polish capital will require considerable assistance after its liberation.

"Polish people are experiencing acute shortage of medications and medicines. Hungry Polish children and women Poles require urgent aid. In the name of brotherhood of freedom loving peoples we appeal to our great Allies for speedy and generous aid which may save lives of hundreds of thousands of people."

LOCAL COMMITTEE TO SEEK AID

During the month of November

a committee of Coleman's Polish

citizens will canvass a number of

local homes for clothing and cash.

Any aid given this committee will

be sincerely appreciated by the

national Polish association.

CATHOLIC CHURCH, RECTORY PRESENT NEW APPEARANCE

The voluntary laborers who have worked several weeks past on stuccoing the Catholic church and rectory are to be congratulated on their fine job.

The rectory has had its stucco painted white with pale green trimmings, giving it a very neat appearance. The church was a much larger job, but it, too, looks smart in its new coat of stucco with pale green trimmings also.

The two buildings will be undoubtedly much warmer this winter.

Hallowe'en Passes Quietly; No Damage Reported

Many Youngsters Were Out For
Hallowe'en Apples; Sheet Out
Tickets Given Good Play.

Youngsters by their hundreds were out in force on Tuesday evening as they travelled from door to door in quest of candy, nuts and appetizers. Many were adorned in fancy costumes and grotesque masks, others covered themselves with Dad's old coat and a mask.

There appears to have been no "rough stuff," as up to Wednesday afternoon Constable Antle had not received one report of damage due to Hallowe'en pranks.

Sheet out tickets were much in evidence and it would appear that the Kinsmen's clubs of Canada, who sponsored sheet out tickets, done fairly well in Coleman. Tickets were sold through the schools and also through the stores.

WORLD HAPPENINGS
BRIEFLY TOLD

Major G. R. Benoit of the Wartime Information Board staff, has left Ottawa to become press attaché at the Canadian legation in Paris.

This year's Nobel prize for medicine has been awarded to Sir Alexander Fleming, discoverer of penicillin, the Bern radio said.

Among 155 civilians in Britain known to have been blinded by enemy action, 32 lost their sight during flying bomb attacks.

Sir Frank Alexander, 63, chairman of the Baltic Exchange, was chosen lord mayor of London in succession to Sir Frank Newson-Smith.

To avoid colliding with the car of the Hon. M. Bowes-Lyon, brother of the Queen, a R.A.S.C. motorcyclist ran into a brick wall and broke his ankle.

The B.C. government has bought a site near Duncan for a third Provincial government forest nursery where 6,000,000 trees are to be produced annually for reforestation.

More fish is in prospect for Britain this winter. Many trawlers which have been in the Navy for five years have been released to join the fishing fleet.

A. C. Brault, Montreal manager for National Selective Service, said that there will not be a drastic reduction in employment during the post-war years as there was after other wars.

SUNDAY SCHOOL LESSON
NOVEMBER 5

THE CHRISTIAN AND THE RACE PROBLEM

Today let us begin with I perceive that God is no respecter of persons; but in every nation he that feareth him, and worketh righteousness, is acceptable to him. Acts 10:34, 35.

Lesson: Luke 10:23; Acts 10:9, 16, 34, 35; 17:22-31.

Devotional Reading: Psalm 100.

Explanations and Comments

How a Samaritan Treated a Man of Another Race, Luke 10:25-37.

How Peter Learned that God Is Not Respected of Persons, Acts 10:9-16, 34, 35. Peter was at Joppa, modern Jaffa, the only port of Palestine, 30 miles from Jerusalem. He was staying in the house of Simon the tanner, which shows that he had lost something of Jewish exclusiveness for the strict Jewish regarded a non-Jew as an unclean person. The Levitical law forbade contact with death in any shape lest defilement should be contracted. To Jewish Joppa Peter came, and we can understand that, as he moved about its narrow lanes leading to the sea, which was the scene of his countrymen's persecutions, he grew more concerned than ever over the ceremonial law.

As Peter prayed one night on the tanner's doorstep he was doubtless hungry, and his thoughts had probably been occupied with the people of other races, whom he had been meeting. He fell asleep and had a vision of a receptacle let down from heaven, having the form of a basket of food, fowls, beasts, and creeping things, and he heard a voice saying, "Rise, Peter, kill and eat." Horrified at the thought, Peter exclaimed that he had never eaten anything so unclean. He had strictly observed the commandments that prescribed what animals could be slaughtered for food and prescribed also the method of slaughter.

"What God had cleansed, make not that common," were the astonishing words that reached Peter. That led another vision, not only of food but of peoples were abolished. Peter was pondering in his mind when messengers sent by Cornelius arrived at the gate and made the lesson plain. They had been sent by Cornelius to ask Peter, a Jew, to come to his house, that is, Gentile. It was Peter's opportunity of putting at once into practice the lesson taught by his vision. He went with the messengers to Cesarea where in the house of Cornelius he found many Gentile kindred, and learned from Cornelius himself how Cornelius had been led in a vision to send for him (Acts 10:1-8). "Thou hast well done that thou art come," said the centurion; "now therefore we are all here present in thy sight." Peter had to hear all things that had been commanded thee of the Lord.

Reciprocal Rights

Empowered To Hold Own Military Tribunals In U.S.

Canada and the United Kingdom are empowered to hold their own military tribunals in cases affecting their armed forces in the United States, according to a presidential order published in the Federal Gazette at Washington.

The United States has been given similar powers over its own forces in Canada and the United Kingdom and the order giving those countries reciprocal rights here has been in effect for some time but was formally published only recently.

Whistling swans do not whistle and screech owls do not screech. 3000 can nations.

Dutch March German Prisoners

Dutch resistance soldiers are shown marching German prisoners back into Eindhoven.

Fort Of Breendonck

Belgians Will Preserve It As Proof The Devastating Effect Of Britain's Secret Weapon For Invasion Work

The fort of Breendonck is located a few miles from Antwerp. Concrete machine-gun turrets bulge from heavy walls. An electrically charged wire rings the moat. In four years of German occupation, thousands of Belgians and other anti-Nazis walked into Breendonck to be imprisoned and tortured. An average of 120 were reported killed each month. Now, unforgiving and unforgettable Belgians plan to preserve Breendonck as a grisly museum - a record of what the Nazis did.

Post-war visitors will mount a stone stairway to the first row of cells. Six feet square, each cell contains only a thin bucket and fetters. Few prisoners dared to lean against the whitewashed walls for a spot of white on clothing provoked a beating.

In the torture chambers are branding irons, with a stove nearby, for heating them; whips with steel pellets at the end of each strand; a pulley from which naked victims were suspended by their ankles and dropped jerkily for hours, while their heads swelled and blood trickled from ears, nose and mouth. In one room, where the fingers of prisoners were broken joint by joint and fingernails were torn out, a trough was dug in the concrete floor to carry away the blood. A sealed room contained an air pump which desperate victims worked until they collapsed from gas, flowing in from another vent; electric wiring in one wall gave them 220-volt shocks. Coffin production was streamlined. Each prisoner built his own. From Newsweek.

Valuable Equipment

Anti-Gas Device Is Vital Part Of Every Soldier's Pack

Every Canadian soldier overseas goes into battle with a piece of equipment that may one day save his life. It is a small canister filled with charred coconut shell; the most important part of his anti-gas equipment.

In a chemical plant in Quebec fewer than two dozen people turn out annually several hundred thousand pounds of activated carbon.

The coconut shells are gathered in the West Indies, and they arrive in the Dominion in a rough, charred form. First they are refined and then put through an activating furnace. Mixed with other chemicals they are then ready for use in the canisters of respirators.

The coconut shells have a high absorbent quality that filters out poisonous gases enabling a soldier to breath fresh, clean air even though he is fighting in the middle of an enemy attack. Although the Germans haven't used gas so far in this war, the army isn't taking any chances.

The Canadian production of activated carbon is five times greater than that of the United States before the war. And although it was not made in the Dominion before 1939, activated carbon has a possible post-war use in air-conditioning units for offices.

MILITARY TRIBUNALS

Canada and the United Kingdom are empowered to hold their own military tribunals in cases affecting their armed forces in the United States, according to a presidential order published in the U.S. Federal Gazette. The United States has been given similar powers over its own forces in Canada and the United Kingdom.

Peru is the oldest of South American can nations.

Rail Chief Issues War Loan Appeal

In a message addressed to all officers and employees of the Canadian National Railways, R. C. Vaughan, chairman and president, expressed appreciation of their past achievements and urged their full support of the Seventh Victory Loan campaign.

"A team fights hardest when it is pushed back against its goal line," he said. "An army is never more dangerous than when defending its homeland. And so with our enemies; whatever their deficiencies may be, we may expect them to employ all of the courage and skill they possess in their efforts to avert complete defeat, with the result that there will be many desperately-fought battles before we emerge victorious in Europe. The money to permit our forces to wage this war must be raised in Canada and all of us who long for peace are urged to 'Invest in Victory' by a quick and whole-hearted response to the Seventh Victory Loan.

The response to the previous Victory Loan campaign by all in the service has been magnificent. Therefore in this letter I need only convey to you my personal appreciation of your past achievements and express my firm conviction that in the Seventh Campaign the record will not only be maintained but substantially exceeded."

Trophies Of War

Men Will Not Have To Pay Duty On Souvenirs

Hundreds of Canadian airmen are planning to bring home trophies of war, which the Dominion government has decided to allow into the country duty-free.

German motorbikes, swastikas, belt buckles, cigar platters, mauser rifles, jeweled "Death Head" shoulder badges of S.S. regiments and tin helmets are among the trophies the men want to carry home.

Some even wonder if the phrase "trophies of war" could be stretched to include camouflaged enemy scouts and small amphibious "ducks", left behind by the retreating enemy.

MUST GIVE UP PLATINUM

Computerized sale of all family platinum has been ordered by Japan's munitions ministry to offset the shortage of this "important and indispensable war material," Tokyo radio reported in a broadcast.

THIS CURIOUS WORLD

By William Ferguson

ANSWER: January.

REG'LAR FELLERS—The Height of Kindness

An Unusual Job

R.A.F. Flight Officers Chase Cyclones In The Bay Of Biscay

One of the most unusual jobs the R.A.F. have to perform in India is carried out by FO. J. D. Hastings, of London, N.W., and FO. Rawlinson, of Quadriling, near Spalding, Lincoln.

Using a long-range aircraft as a flying meteorological station, they go into the treacherous bay to look for the violent storm, which land reports suggest is blowing up.

Deliberately they seek the ominous banks of cloud which signify bad weather and often fly through worse weather than pilots ever experience on operations in order to track the movements of the storm.

The flying meteorological station was brought into use when it was found that ground reports might not give enough warning of the devastating cyclones which spring up in this part of the world.

By locating bad weather in the Bay of Bengal, as much as three days' warning of its approach can be given. —The Magazine Britain.

Go North

Territory In Alaska Will Gain In Population After The War

The territory of Alaska will gain 1,000,000 in population immediately after the war, Governor Ernest Gruening predicted.

"Thousands of service men who have learned of the opportunities Alaska has to offer while stationed in the north are eager to return and live there," the Alaskan executive said as he paused in a trip to Washington, D.C., for conferences on the territory's post-war program.

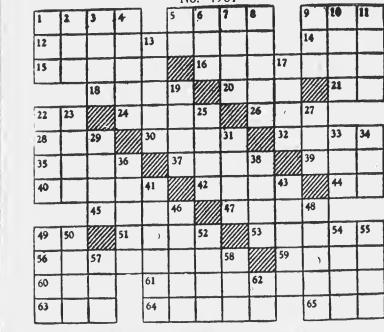

PROOF ENOUGH

A bend in one of the roads in Hobart, Tasmania, was said to be dangerous, so seven of the city's drivers piled into a car and went to investigate. When the car hit the curve it skidded over the edge and deposited the civic fathers among blackberry bushes in the bed of a creek. Their on-the-spot decision was unanimous.

About 1830, a favorite piano forte composition was the "Snuff-box Waltz".

x-x OUR CROSSWORD PUZZLE x-x

No. 4907

needed, to give her some of the old sparkle.

"See, this room is a dead-ringer for our living room," said Maggie. "The light woodwork, flowered wallpaper and plain carpet clear to the walls. This old maple rocking chair. The cretonne covers on the sofa and chairs. These old-fashioned tie-back curtains. And that corner cupboard!"

"Uh huh," said Zeke, peering at the magazine. "I always kinda liked this room myself, but fix it any way you want to."

Maggie spent money gleefully. She bought nice sensible brown paint for the woodwork and the floor, where the new rug wouldn't reach. The rug was green with a lot of rust-colored gewgaws. The new drapes were stiff and green. With them came fancy panel curtains.

"The sofa and chairs are all right," said Maggie. "We'll just take off the cretonne covers and put on some fancy doilies. The upholstery is good as new."

"Kinda dark," mumbled Zeke.

"But rich," said Maggie with authority. "I'm glad I found out a little about interior decorating."

Maggie chose plain benna wallpaper. "Dignified, and yet colorful," she said.

Zeke painted and papered, pushed furniture about and laid the rug. Maggie took down the row of silhouette pictures over the sofa and replaced them with a large framed bowl of fruit. The new curtains shut out the sunshine, but Maggie sang as she put on the finishing touches—the fringed curtains at jaunty angles on the piano and library table; the doilies on the chair and sofa backs.

"It sure does change things," Zeke sighed. Maggie smiled happily.

Zeke went to the station to bring the two youngest of the brood, Joyce and Donald, home for spring vacation. As they rumbled along over the thawing roads, Zeke cleared his throat.

"There's been some changes since you was home," he said by way of introduction. "Your ma has done over the living room. Copied it after a picture in a magazine. I want you to say like it whether you do or not."

Donald's mouth dropped open, and Joyce started to say something, but Zeke went on. "The way I figure it, it ain't so much what it looks like, as what it's done. Your ma has a new permanent wave, and some new clothes. She looks pretty classy. She's head of the Red Cross unit here, and she belongs to that Study Club in town your Aunt Helen's been trying to get her to join all these years. She feels, she says, that the home gives her a background."

"But what?" Joyce began. "Anyway," went on Zeke. "It looks like these darned interior decorators' make up their minds about what's stylish and what's not, instead of going around in circles every thirty years."

"Well, what's the matter?" Donald demanded.

"It's like this," Zeke explained. "Your mother's eyesight isn't so good as it used to be. She got them 'before' and 'after' pictures mixed up. And changed the room from good to bad."

Got His Man

Ex-Mountie Of Edmonton Gets A German Sniper

The Mountie, in this case too, got his man.

Tom Lowe, Edmonton, was a Mountie before he enlisted in the army. When the Cape Breton Highlanders went into action in the Adriatic offensive, he commanded one of their companies as a major.

A German sniper shot one of his men and Lowe forgot everything but the idea of getting the sniper. For two long hours he lay in wait, watching the bit of ground he knew concealed his prey. For two hours the German lay still. Then he made a move—and the Mountie got his man. Major Lowe was later wounded by a shell.

Short-Wave Radio

Canada's Link With Europe Will Be Ready By First Of January

Canada's first short-wave radio link with Europe is almost forged, and by Jan. 1, 1945, should be on the air 18 hours a day. Dr. Augustin Frigon, general manager of the Canadian Broadcasting Corporation, announced.

Dr. Frigon said the new station, now under construction at Sackville, N.B., will ultimately be the most efficient short-wave transmitter in North America. The first beam will go on the air on an experimental basis in December.

"Going in for some style, huh?" Zeke was relieved and pleased. A new interest, that's what Maggie wanted to laugh much.

"Don't look so scared," she said. "I'm not cuckoo, even if I do sound like it. I'm going to do over the living room. Redecorate it. Like the illustration in this magazine. See, this picture is 'before' and this one 'after'. Why, our house must look antique!"

"Going in for some style, huh?" Zeke was relieved and pleased. A new interest, that's what Maggie

SLOAN'S LINIMENT

Energy From The Sun

Converter Capable Of Melting Iron
Invented In Russia

A new type of solar energy converter capable of melting iron has been developed by the refugee Spanish scientist Federico Molero, who is carrying on experimental work in Tashkent, capital of Soviet Uzbekistan.

In an article published in the Moscow News, Molero describes his energy converter as a "paraboloidal mirror, 33 feet in diameter," mounted on light metal framework resembling the wings of an airplane. He states that the reflector surface is made of ordinary window glass, bent into the desired shape without pre-heating.

According to Molero, his device can produce hot water "in quantities measurable by the thousands of kilogram hourly" or "superheated steam at a temperature of 470 degrees centigrade," which is hot enough to melt a number of metals, including iron.

Because of the fact that the solar converter is unable to operate in cloudy weather, Molero says that his new machine will be best suited for use in branches of economy "where energy consumption coincides with energy production".

His machine could be used, for example, to drive steam engines to pump water for irrigation purposes. Molero suggests that his machine may thus be potentially capable of promoting cattle raising in the arid regions of Central Asia. He also thinks it could be used for refrigeration, or for conditioning the same area where need for such service is the greatest during the sunny period of the year.

Donald's mouth dropped open, and Joyce started to say something, but Zeke went on. "The way I figure it, it ain't so much what it looks like, as what it's done. Your ma has a new permanent wave, and some new clothes. She looks pretty classy. She's head of the Red Cross unit here, and she belongs to that Study Club in town your Aunt Helen's been trying to get her to join all these years. She feels, she says, that the home gives her a background."

"But what?" Joyce began. "Anyway," went on Zeke. "It looks like these darned interior decorators' make up their minds about what's stylish and what's not, instead of going around in circles every thirty years."

"Well, what's the matter?" Donald demanded.

"It's like this," Zeke explained. "Your mother's eyesight isn't so good as it used to be. She got them 'before' and 'after' pictures mixed up. And changed the room from good to bad."

FINE FOR CHILDREN

The last few months of the German occupation of Belgium provided children with new playgrounds—the fine concrete highways over which German transport moved. Belgian kiddies used them for roller skating.

Flowers In The Home

Start Care Now Of Your Winter House Plants

One of the secrets of success in keeping house plants in good condition during the winter is to start their care immediately the heat is turned on in the home in the fall. The reason is that one of the most common causes of failure during the winter is that the plants are kept in rooms that are much too warm for them. By the time Christmas has arrived, the plants may be wilted or otherwise in poor condition, particularly if they have been placed near a radiator. More house plants have been killed by heat than by cold. The ideal temperature for house plants is about 65 degrees, or better still, 60 to 65 degrees F. three degrees less than the recommended house temperature both from the heat point of view and that of the war fuel-saving campaign. If one desires to have the plants in any of the living rooms, the best thing to do is to keep the rooms as cool as possible consistent with personal comfort.

The various plants have different tolerances to sunlight. Ferns should be placed where there is an abundance of light but not in direct sunlight, while, on the other hand, flowering plants as a rule require all the sunlight they can get, especially in winter time. Foliage plants are more tolerant to insufficient light, but in winter time they may be placed in direct sunlight.

Care should be taken to prevent direct draughts on plants. At the same time, a dry atmosphere is to be avoided because it not only stunts the plants but helps the increase of certain insect pests, such as red spider and thrips. Moisture in the air around the plants may be increased by standing the pots in shallow trays filled with pebbles, gravel, or moss and keeping it moist. Drainage for the pots is an important factor. This may best be arranged by using soil in the pot that will allow both air and water to pass through easily. A mixture of two parts good garden loam soil, one part rotted manure, and one part sand will generally fulfill the soil requirements of potted plants. Further drainage may be obtained by placing pebbles, small stones or like material at the bottom of the pot, so as to drain off any excess water.

Scientists say that when the barometer is falling, husbands and wives quarrel more, and children become more unruly.

BAKED MACARONI

1 1/2 cups uncooked macaroni
1 medium-size onion
3 tablespoons Mazola
3 cups canned tomatoes
1 tablespoon corn syrup
1 1/2 cups shredded cheese
1/2 teaspoon pepper
3/4 lb. sausage meat
1/4 cup bread crumbs

Cook macaroni in 3 quarts boiling water to which has been added 3 teaspoons salt, drain and use. Cook onion in Mazola until golden brown; add tomatoes, corn syrup, salt and pepper; simmer 15 minutes. Shape sausage meat into six flat cakes; place half the macaroni in 1 1/2 qt. casserole oiled with Mazola; cover with sausage cakes; then cover with remaining macaroni. Pour on tomato mixture, sprinkle with soft bread crumbs. Bake in moderate oven. Serves six.

More and more homemakers are getting into the habit of keeping tickers on the table through all dessert courses. By economy, I mean saving butter—one of the rationed foods. Many housewives have reduced to serving tiny slivers of butter in contrast to their generous pre-war habit in order to balance the ration coupon budget. But even a slim pat is sufficient for several crackers. In fact, the texture and salty flavor of the crackers make them delicious without any butter at all!

HAD SOME JOURNEY

On Oct. 5 a Christmas parcel, mailed to Tpr John McDonald of Chamcook, N.B., overseas, on Nov. 1, 1943, finally found its addressee at Chamcook. The parcel went overseas, followed Tpr. McDonald all around slate quarries of North Wales. England, followed him from coast to coast in France when he was assigned to a mosquito boat back to England where he was invalided last spring. The fixed remuneration attached and finally back to Canada where he is to the honor of being England's laureate is about \$515 a year.

SLATE QUARRIES BUSY

Flying bombs which tore the roofs off thousands of houses in London and other parts of Southern England, have brought renewed prosperity to the slate quarries of North Wales. Quarries are working full time to meet the demand for repair work.

We at home don't have to give our lives, limbs, or health, or even give up our jobs. All we're asked to do is to lend our money for the seventh time. And we'd still do it if it were the seventeenth

time; because we know deep down that the future happiness of our children is without price. So, let's go all out again and put this Seventh—and maybe the last!—over the top!

NOTES AND COMMENTS

A Job For All

One horse can move a wagon. Two horses will move a dray. A million horses can move a mountain.

One Canadian soldier can wipe out an enemy machine gun nest. Ten Canadian soldiers may capture an enemy outpost. Two hundred thousand Canadian soldiers can press back a German army.

But the mountainous task of beating Germany completely and finally requires the help of at least three million Canadians here on the home front. The support which our soldiers, sailors and airmen require for the last punishing blow comes primarily through the sale of Victory Bonds. And to make that support adequate Canada needs at least three million purchasers during the Seventh Victory Loan campaign who will make their individual purchases larger than before.

Price Control

Price control is probably the most widely recognized of the many controls making up Canada's comprehensive stabilization program. Although there has been criticism of some parts of the price control policy, there can be no doubt of its overall effectiveness.

Since the price ceiling came into effect, the cost of living has been kept definitely within bounds. The total Canadian cost-of-living index has increased about 3% since December, 1941. The cost of food has gone up 8%, clothing less than 2%, rents less than 1%, and the cost of fuel and lighting has remained unchanged since that time.

Despite the fact that many of the price control measures appear complicated to the uninitiated, the basic policy has been simple. Prices of most goods and services were frozen at the level prevailing during the "basic period" in 1941, or at levels established by the Wartime Prices and Trade Board as equivalent.

The chief difficulty in maintaining the price ceiling has been the impossibility of preventing increased costs in many cases. Increased costs come about in a variety of ways, some of them completely unavoidable. There are increased costs of imported materials, or the necessity of substituting more expensive materials for those no longer available. There are also increased costs for transportation in wartime.

The problem has been to prevent these increases from reaching the consumer in the form of increased prices. Several devices are used to solve this problem. The first method is to have the producer and the distributor share the "squeeze." Great credit is due the manufacturers, wholesalers and retailers of the country for the manner in which they have assumed some of the burden of these increased costs.

The second method of combating increased costs is by means of the program of simplification that was instituted by the WPTB. Elimination of many of the unnecessary frills from many lines of goods made manufacturing costs less.

The various simplification measures have been designed so that they can be accomplished with the minimum amount of difficulty to the manufacturer.

When these two methods are not sufficient, or are not applicable in particular cases, a third alternative has been used. This is the suspension of custom duties and import taxes on some materials. The amount lost to the Treasury has been more than compensated for by the lower costs allowed under this method.

Only as a last resort has a policy of subsidy payments been introduced. Subsidies have to be paid for eventually by the consumer from taxes, but their merit is that they prevent price increases which would in turn lead to price increases in other products, and so in the long run cost much more. Subsidies have been used mostly for imports, or for farm products.

These are the measures of proven value. But they are only the machinery of price control. The substance of price control is the support the policy has been given by every Canadian. This support must continue if the policy is to continue successfully. The cost of living can be kept down if every Canadian remembers the specific tasks charged to the individual—to eliminate all unnecessary spending, to buy and sell only at legal prices, and not to press claims for higher profits because of wartime conditions.

Cliff Madden Sells

Windsor Hotel

At Lundbreck

Lundbreck won't seem quite the same. The breezy laugh of Cliff Madden, for many years "mine host" at the Windsor hotel, will be missing, for the business has been sold to D. Posattie, of Kimberley. Cliff and his mother will

move to the Pacific coast.

It is nearly 40 years since his father started the hotel in the foothills town. Cliff, in his younger days was a hard rider, and his make-up still bears traces of the days on the range. When his father died, Cliff took over and also at one time ran a livery business when horses were more in use than today.

After a hot day riding on the plains, as one approached the

mountains, Cliff's place was always a welcome stop, for the beer there seemed cooler and better than anywhere else along the trail.

He has many years ahead in which to continue his activities, for he is only 50 years old, but looks younger, and still has the fire and vim of early days.

Just to keep in touch with the local news, he wants the local paper sent, and hopes to make a visit back occasionally.

CANADA'S VETERANS
Their Post-War Opportunities

This is the Fifth in a series of advertisements to inform the people of Canada of plans to re-establish men and women of the armed forces. To get full details, save and read every advertisement.

For complete information, write for the booklet, "Back to Civil Life."

Care for the Wounded and Ill —
CANADA'S TREATMENT
AND PENSION LEGISLATION

Canada has assumed as a minimum obligation to members of the armed forces that before their return to civil life, the fullest possible measures shall be taken towards physical fitness, and that pension shall be provided for any permanent disability due to service. Full medical service is provided and veterans' hospitals have been established from coast to coast. Equipment for the most modern types of treatment has been installed, and leading specialists in all branches of medicine and surgery have willingly placed their services at the disposal of veterans.

There is free treatment with allowances to every discharged person for his first year after return to civil life and free treatment with allowances for pensioned conditions is available throughout the pensioner's life.

Those discharged from the forces unable to work and in need of continuing treatment may have their pay and allowances of rank continued for one year, if necessary, and for longer when treatment is still required for a pensionable condition.

PENSIONS

Pension is awardable under three simple and easily understood conditions:

1. When the veteran has served in a theatre of war, death or any permanent disability not due to misconduct is pensionable.
2. (a) When the veteran has served in Canada only, death or disability caused by service is pensionable.
- (b) Death or serious disability not due to service may be pensionable if hardship would otherwise result.

JOBS FOR DISABLED

A very wide program of education is being carried on continuously so that veterans who suffer a disability as a result of their war service may have a full and happy future. Many volunteer associations are assisting in this work, while specialized help is available from such organizations as the War Amputees of Canada, the Canadian National Institute for the Blind, and the Canadian Society for the Deaf and Hard of Hearing.

THE COMMUNITY'S RESPONSIBILITY

This series of advertisements has given, in brief form, an outline of the Canadian re-establishment program for ex-service men and women. The responsibility, however, is not entirely that of Parliament. It can provide legislation and funds but in the final analysis it must be the veterans themselves and the people of Canada who make the program work. The public support so far has been unstinted, but successful administration requires further public support. Understanding and effort by the whole people are needed.

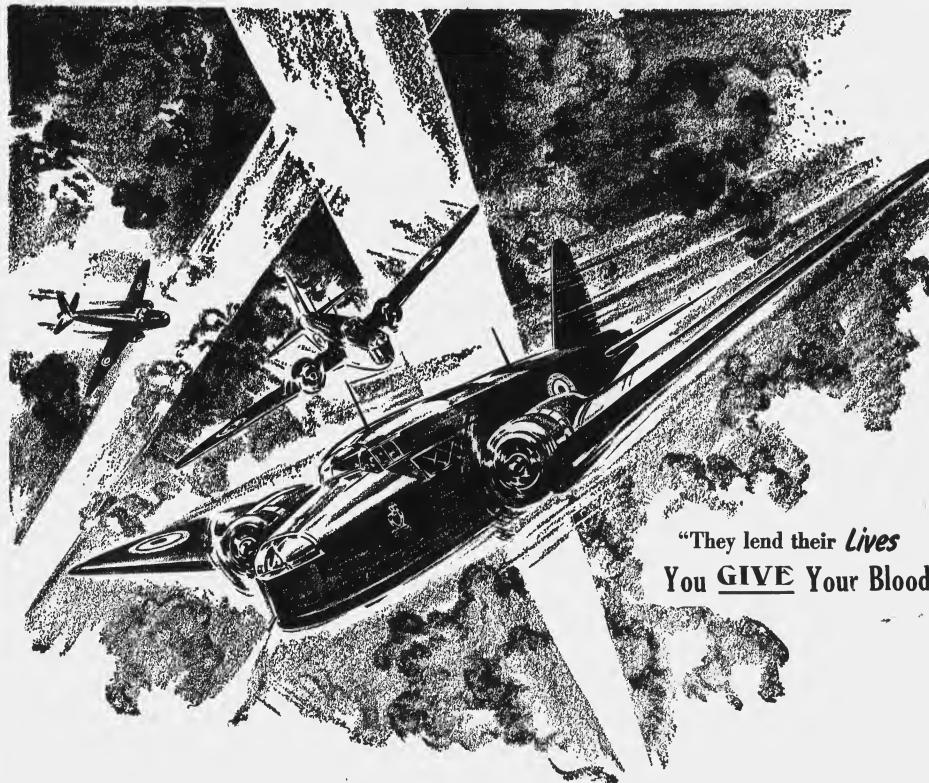

VETERANS' WELFARE OFFICERS ARE STATIONED IN KEY CENTRES THROUGHOUT CANADA. THEY ADVISE AND ASSIST EX-SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.

Issued under the authority of Hon. Ian A. Mackenzie, Minister of
VETERANS' AFFAIRS

Coleman Went Over The Top Last Friday Morning; Heavy Volume of Subscriptions Received Thursday

New Quota of \$132,000 Set After Reaching Official Quota; Fifth Unit in Province to Reach Quota.

When the War Finance Committee stated last Wednesday morning it hoped to reach its quota last week and the statement was made with some confidence that a heavy volume of sales which flooded head-quarters on Thursday last. At the end of Wednesday's sales there was still \$30,000 to be secured. At the close of Thursday's sales the quota had almost been reached, so heavy were the subscriptions. An announcement was made that this was all that was required to reach the quota and at the stroke of 11 a.m. the news was phoned to Leth-

bridge where it was immediately announced over the radio station COOC.

There was great rejoicing at the head-quarters. Thursday evening as canvasser after canvasser brought in better than average sales. This is the quickest Coleman has ever reached its quota and the unit was the fifth in the province to go "over the top." The other four units are the Pincher Creek - Crown Nest division to reach its quota.

The work of the canvasser is becoming increasingly easier. Citizens are bond conscious. They know they can secure their money at a few minutes notice and they also know that the bonds have the backing of all the resources of the Dominion behind them.

On Friday the canvassers held a meeting and decided to shoot for another 25% of the quota, thus setting a new quota of \$132,000. Of this amount \$100,000 had been received on Monday evening, thus making it possible to reach the new objective on Tuesday evening as this article is written. Wilf Dutil, acting unit organizer in the absence of Frank Aboussafy, was in high hopes of exceeding the second quota and thus having an honor or pennant flying on main street this week.

FRANK ABOUSSAFY BEREAVED

Mr. Frank Aboussafy received the sad news on Saturday afternoon that his aged mother passed away suddenly at his Wetsaskiwin home a short time before.

Mr. and Mrs. Aboussafy, Louise and Edmund left early Sunday for Wetsaskiwin, where they attended the funeral held from the family residence during the week.

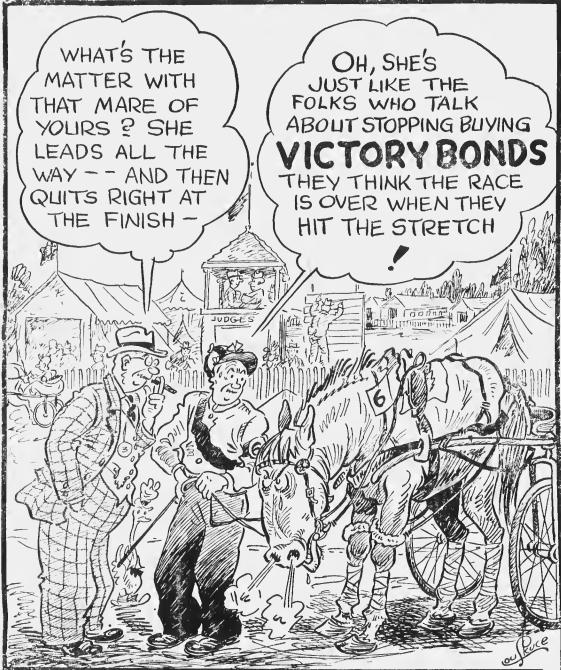

The sympathy of Mr. Aboussafy's many friends is extended to him in his bereavement.

Municipal Hospital Scheme Advertised This Week

The scheme prepared by the provisional board of the proposed Crown Nest Pass Municipal Hospital District for the construction of a municipal hospital in the Pass is being publicized this week and appears elsewhere in this issue.

Ratepayers' attention is directed to the advertisement, as detailed information is given as to location, estimated cost, estimated income, and many other important points. The scheme should be given careful consideration.

The Board proposes to have E. Maxwell, supervisor of municipal hospitals, come to Coleman before the vote is taken to address a meeting. Questions can be asked at the meeting pertaining to any point on the hospital's construction or financing.

Druggists' Contest Winners Announced

Henry C. Sparrow, 1418 Joliet Ave., Calgary, won the electric refrigerator in the Alberta druggists' third annual war savings stamp campaign when the drawing was held for it and other prizes took place Monday night in C.P.A.C. studio. Mr. Sparrow's ticket was the first drawn from among approximately 200,000 stubs, representing nearly \$60,000 in war savings stamps sold throughout Alberta during the September campaign sponsored by the druggists.

Fifteen other tickets were drawn by nine-year-old Shirley Clarke, eldest daughter of Petty Officer Robert Clarke and Mrs. Clarke, 1621 16th Ave. W.

As the winners were drawn from the box they were announced over the air by Major Howard Gainer, MC, of MD 13.

Winners of the other prizes, each a \$50 war savings certificate, were as follows: Mrs. Dodge Lethbridge; A. E. Edmund, Crossfield; "Little Joe" MacLeod, Calgary; M. Ashley, Calgary; A. F. Davis, Delta; Rev. Mr. Sinclair, Innisfail; Mrs. J. Hunter, Calgary; S. Lew, Didsbury; Mrs. Allan McLean, Calgary; D. Oldham, Calgary; E. Fitch, Calgary; J. H. Gollings, Calgary, and Marion Chisholm, Lethbridge.

Winners of the 16th and 17th prize certificates went to druggists in northern and southern Alberta selling the most stamps during the campaign. O. L. Reinecke, Claresholm, whose sales aggregated \$5,162, won the southern award, and W. H. Spratt, Edmonton, for the north with \$675.

LOCAL NEWS

Mrs. J. Seaman was a recent Calgary visitor.

Alex. Easton is confined to his home with sickness.

Pte. Don Kettys has now been based at Chilliwack, B.C.

LAC Oliver Salvador spent the week end at his home here.

Harold Maslem was a Lethbridge business visitor at the week end.

LAW Thelma Vincent, based at the Pacific coast, is home on furlough.

Lieut. and Mrs. W. W. Hoyle left last week for Vancouver to travelling by TCA.

Cpl. D. Langstaff, of Macleod, was the week-end guest of Mrs. C. F. Dunlop.

Mrs. Mary Pytlar, Mrs. Mike Kuchtry and Mrs. Steve Siska are hospital patients.

William Ireland has been confined to his home for more than a week with sickness.

Mrs. Harry Leong recently visited her parents, Mr. and Mrs. Kraft, of Shaughnessy.

Mrs. and Mrs. Ernest Hill recently left for Vancouver, where they have taken up residence.

Mrs. W. L. Rippon, Mrs. N. A. MacAulay and Miss Edith Hayson were recent Calgary visitors.

Cpl. Harold Turner has returned to his base at Seebe after spending a furlough at his home here.

Mrs. G. Clarke and Mrs. J. Houghton have returned home after a vacation spent at Vancouver.

Ableseaman Douglas Jenkins has returned home after spending part of his furlough with his sister, Mrs. Dave Jessey, of Calgary.

Mrs. C. D. Rogers returned home on Saturday evening from Drumheller, where she had spent a week's holiday with her sister.

Mrs. H. Willets entertained at two tables of bridge on Tuesday evening of last week. Honors were won by Mrs. J. Price and Mrs. W. Lonsbury.

The Polish Youth Society members and their guests met at the Polish hall in East Coleman, where they held a delightful party. Games and refreshments were enjoyed by all.

The Journal acknowledges with thanks a renewal subscription from Mr. and Mrs. Ernie Houghton, of Vancouver, and a new subscription received from Cliff. Madden, formerly of Lundbreck and now of Vancouver.

ONE TEAM
One Purpose

Nearly a million Canadian men and women in the armed services of the Dominion, more than a million in war industry, and all the others on the home front—have one goal in sight, a complete and speedy victory.

Teamwork counts as never before, for now the game is in its final, crucial stages. We must all put forth extra effort, use even more of our resources, to make the finish swift and sure.

It is urgent that in this Seventh Victory Loan we each buy at least one more bond than we bought before. It is our duty to our teammates; our duty to our children who will enjoy the fruits of victory. Let us do our duty gladly, that we may earn our place on our winning team.

Coleman Reached New \$132,000 Quota On Wednesday Morning; Secure Second Pennant

Expect to Finish Canvas This Week End With Only "Call Backs" Remaining For Last Week of Loan.

Coleman has now reached, and passed, the self-given quota of \$132,000. This was set by the council on Wednesday morning, after Tuesday's sales brought sales up to \$130,650, leaving only \$1,350 to get on the Wednesday morning.

It is a most gratifying performance and one that no doubt isn't pride of Coleman citizens in the old Home Town. It will also prove to be a great satisfaction to the many home town boys on the battle fronts who receive their home town paper to see how the folks have backed them up, first by

oversubscribing the official quota of \$105,000 in a matter of a few days and then oversubscribing a second quota of \$132,000 just a few days later.

Canvassers fully expect to finish their first call canvass by this weekend, leaving next week free to make "call backs." At the present time the canvas is a little better than two-thirds finished.

A phone call was sent to Lethbridge Victory Loan headquarters on Wednesday morning informing them that Coleman had reached 125% of its quota and that it was in the lead. The second pennant to hang on main street at the earliest possible moment. It is expected the pennant would be received today.

Hospital Staff May Now Be Hired Directly

Professional and non-professional workers for hospitals may now be hired directly without passing through local Employment and Selective Service offices, Hon. Humphrey Mitchell, minister of labor, stated recently.

"In order to help meet the extreme need for hospital staff, this change in the method of finding workers has been granted to hospital authorities, to accommodate what threatens to be a very serious shortage of workers," said Mr. Mitchell.

Male or female applicants may apply directly to hospitals for interview and be hired, with Selective Service permits, as formerly, although the necessary permits will be made out by the hospital authorities.

Local employment offices will continue to secure help for hospitals, and should also be kept advised of all placements made directly by the hospitals.

Instructions have gone out from Ottawa to the employment offices that the changed procedure becomes effective at once.

Snow Made Its Appearance On Wednesday

Sleet Storm Accompanied By East Wind Herald's Arrival of November.

Winter shot its first blast on Nov. 1, as householders rose early on the hospital to a snow covered ground with a sleet storm and an east wind combining to send temperatures down.

The snow gradually thinned out during the day as traffic on streets and sidewalks laid them bare and wet.

The snow, sleet and east wind was in sharp contrast to the beautiful Indian summer weather which had prevailed for several weeks.

Angelo Says "We Wus Robbed!"

The Journal is in receipt of a new subscription this week from Angelo, a young friend of Coleman, but now a hotel manager at Fort Langley, on the west coast.

Angelo, as all his old friends are aware, is a great baseball and softball enthusiast and brought many championships to Coleman with his teams. His interest in the game has not diminished since leaving Coleman, and he now manages softball team at Fort Langley. He entered the west coast play-offs this year, and we let Angelo tell what happened.

"I had a great softball team this year. We beat everything in the Fraser Valley including New Westminster. In the play-off Vancouver just beat us in the final game 5-4, and I sure was robbed by the umpires, they both being from Vancouver. Hope that next year I will bring the championship to Fort Langley, so let's hope."

Angelo can take it for granted that his Coleman friends will be pulling for him next year and may, if invited, even provide a referee.

INFORMATION REGARDING THE PROPOSED Crows' Nest Pass Municipal Hospital District

This information has been compiled by the Provisional Board for the benefit of those who will vote on the plan presented. For further information see any member of the Provisional Board.

THE PLAN

The plan provides for the erection in Crows' Nest Pass, of a well built modern and well equipped hospital, of at least 60 beds, including an operating room, case room, etc.

THE PURPOSE

To provide the best nursing and hospital services for all the people in the district at a minimum cost; and to insure every ratepayer and his family against costly hospital bills.

IS IT AN EXPERIMENT?

Definitely No! Thirty-one similar hospitals have been in operation for some time; three more have commenced operation recently, and more areas are now considering proposals. Public records show that every district in which they operate receives economical and satisfactory illness, accident and maternity hospital services.

HOW IS THE CAPITAL COST FINANCED?

By the issue of debentures for \$185,000.00 to be repaid over a period of twenty years. If they bear an interest rate of 4% the yearly payment of principal and interest will be \$13,612.67.

WHAT WILL THE HOSPITAL RATES BE?

Hospital supporters will pay \$1.00 per day without extra charges for ordinary drugs and dressings. Compare this with the rates non-supporters will pay, or with the rates you now pay for hospitalization. Study the plan detailed herein.

MINIMUM TAX

The minimum tax, no matter how small the parcel of land may be, is \$10.00. The government grant is 46c per day per patient and there is added revenue in hospital fee paid by non-taxpayers.

WHAT WILL THE COST BE TO FARMERS?

Based on the experience of all other Municipal Hospitals in the Province, the Department of Health estimate that a rate of 5.12 mills will provide sufficient funds. This means that if your property is assessed for \$1,000.00, your share of this will be \$10.00 per year.

WHAT WILL THE COST BE TO THE CROWS' NEST PASS RATEPAYERS?

The ratepayers of the Crows' Nest Pass District will pay on the basis of 5.12 mills on their real property assessment, with a minimum tax of \$10.00 per annum.

WILL THE COST TO THE RATEPAYERS INCREASE?

We believe that it will not. The tax levy on the plan was estimated high enough to cover all possible expenses. Further, if other lands are added to the district, it will spread the cost over a larger area and when the debentures are retired, a further reduction should take place. Other Municipal Hospitals, which retired their debentures, operate on a lower mill rate and own the hospital.

MR. FRED ANTROBUS, representing Town of Coleman.

MR. E. WILLIAMS, representing Town of Blairmore.

MR. R. E. DONKIN, representing Village of Frank.

MR. A. W. HOLLINGSHEAD, representing Local Improvement District 71.

MR. GEO. COUPLAND, representing Local Improvement District 71.

MR. A. BALLOCH, Secretary to the Provisional Board.

IS GOOD WATER AVAILABLE IN THE CROWS' NEST PASS FOR THE HOSPITAL?

Certainly! Ample water is available anywhere in the Town of Blairmore. Good drinking water is now supplied to the Town of Blairmore from York Creek near the town. This source is available to the hospital. The Department of Health Chief Sanitary Engineer is satisfied that this supply is satisfactory. YOUR HOSPITAL BOARD WILL NOT PROCEED WITH THE ERECTION OF A HOSPITAL UNTIL THIS FEATURE IS FULLY AND SATISFACTORILY SETTLED.

HOW ABOUT A DOCTOR?

Scarcely as doctors are at the present time, no Municipal Hospital is without a doctor. The Board realizes the importance of a good physician and surgeon and will spare no effort to have one or more skilled practitioners locate in the Crows' Nest Pass District. With the release of doctors from the armed services, many skilled doctors will be available. If any one doctor should not prove satisfactory for any reason whatsoever, the Board is free to ask another one to locate here. Further, should the ratepayers wish it, the Board could enter into an agreement with any particular doctor, at an agreed rate, to supply medical, surgical and obstetrical services. No one will be required to use any particular doctor. Besides, outside doctors may be called in, if or when necessary for any special case.

Plan of the proposed Crows' Nest Pass Municipal Hospital District.

In accordance with the provisions of the Municipal Hospitals Act, R. S. A., 1942, a request was received on February 26th, 1944, by the Minister of Health, at Edmonton, asking that a Municipal Hospital District be established to include the territory described below.

In compliance with this request, the Minister of Health established the Crows' Nest Pass Municipal Hospital District on the 8th day of August, 1944, appointed a Provisional Hospital Board and instructed it to prepare a Scheme for the building and operating of a hospital in the said district, in accordance with the Municipal Hospitals Act.

The Provisional Hospital Board met on September 19th, 1944, and prepared the Plan outlined below in accordance with the Municipal Hospitals Act. The Plan is to be advertised throughout the district for a period of fourteen days following which, providing that all conditions of the Municipal Hospitals Act have been complied with, the Plan will be submitted to the Minister of Health for final approval and a date fixed, not exceeding thirty days from the date of such final approval, upon which the ratepayers of the said district will be called upon to vote for the adoption or rejection of the said plan.

The territory included in the hospital district is as follows:

(a) All of Local Improvement District 71.

(b) The Town of Coleman.

(c) The Town of Blairmore.

(d) The Village of Frank.

The Hospital plan submitted by the Board upon which the ratepayers will be asked to vote is as follows:

(1) It is proposed to acquire a suitable site for the hospital between the towns of Blairmore and Coleman; said site to be subject to the approval of the Provincial Board of Health.

(2) It is proposed to acquire a portion of the hospital equipment and the ambulance services at present owned by the Miner's Hospital.

(3) To build a sixty (60) bed hospital from plans prepared by a registered architect and approved by the Provincial Board of Health.

(4) To provide for an operating room, case room and all essential furnishings and equipment as required in the regulations made under the provisions of the Hospitals Act.

(5) To supplement the revenue derived from taxation by the adoption of a schedule of fees as follows:

(a) To all ratepayers assessed in respect of property within the hospital district and their wives, dependent family and dependents, the sum of one cent per ratepayer per year, resident with them, per diem rate of One Dollar (\$1.00) provided such ratepayers shall be assessed a minimum tax of Ten Dollars (\$10.00) per annum.

(b) Non-ratepayers in the hospital district may receive hospital treatment at a rate of One Dollar (\$1.00) per diem, upon payment of a yearly sum of Ten Dollars (\$10.00) for each person, and the sum of Ten Dollars (\$10.00) per family, providing this sum is paid within thirty (30) days of the opening of the hospital and thereafter not later than January 10th in each year except that persons entering the Hospital District must pay this sum within three (3) months after coming to the district. The board reserves the right to reduce this payment. In its opinion, it is made for the purpose of receiving immediate hospital treatment. In this paragraph the family shall mean the father, the mother and dependent children only.

(c) Every person resident outside the boundaries of the hospital district who pays the outside hospital support's fee of Twenty Dollars (\$20.00) to the Secretary-Treasurer of the Hospital District, on or before the 10th day of January in any year shall be deemed to be a hospital supporter for the calendar year, providing the board deems accommodation is available.

(d) No charge will be made for ordinary drugs and dressings for the persons eligible

for the per diem rate of One Dollar (\$1.00), but they will be required to pay for the use of the operating room at the rate of:

Major operations \$5.50

Minor operations \$3.00

(e) All persons not eligible for the per diem rate of One Dollar (\$1.00) shall pay not less than Three Dollars and Fifty Cents (\$3.50) per day with additional charges for drugs and dressings, and operating room charges as follows:

Major operations \$11.00

Minor operations \$6.00

Case room \$6.00

(f) All persons not eligible for the per diem rate of One Dollar (\$1.00) shall pay not less than Three Dollars and Fifty Cents (\$3.50) per day with additional X-ray charges.

(g) Extra charges for ratepayers or non-ratepayers requesting private accommodation and receiving such accommodation shall be set by the Board and be subject to the approval of the Department of Health.

(h) The Board may enter into agreements with city hospitals for the care of special and emergency cases, certified by the attending physician, which cannot be adequately hospitalized at the Crows' Nest Pass Municipal Hospital.

(i) To create a debenture indebtedness of One Million and Fifty Thousand Dollars (\$1,050,000.00), twenty years at interest not to exceed 4%.

To repay said debentures in equal installments of combined principal and interest for a term of 20 years.

(j) The Plan for the Proposed Revenue and Expenditure:

(a) REQUIREMENT:

L. I. D. No. 1	4.12 Miles	\$16,458.00
Town of Blairmore	5.12 Miles	3,000.00
Town of Coleman	5.12 Miles	4,316.67
Village of Frank	5.12 Miles	388.00

\$24,712.67

(b) ESTIMATED REVENUE:

Govt. Grant, \$8,800 patient days @ .45	\$ 3,960.00
Patient Fees @ \$1.00, less 20% N. C.	7,040.00
Operating room, contracts, etc.	7,000.00
Estimated requisitions	24,712.67

\$24,712.67

(c) ESTIMATED EXPENDITURE:

Operating Cost @ 3.25 per patient day on 8,800 days	\$28,600.00
Yearly capital repayment on \$185,000.00 debentures,	

20 years, 4% 13,612.67

Estimated surplus \$42,712.67

Approved.

W. W. CROSS,
Minister of Health.

MAY A HOSPITAL SUPPORTER SECURE HOSPITALIZATION ELSEWHERE?

Yes. The Hospital Board intends to make arrangements with City Hospitals for the care of special and emergency cases, and the cost to the ratepayer will be the same as at home, that is One Dollar (\$1.00) per day.

This means that if you require treatment which can not be provided at the Crows' Nest Pass Hospital, you pay the same hospital rate elsewhere—that is, One Dollar per day.

WHY A VOTE FOR THE PLAN?

The Municipal Hospitals Act requires that those who reside in the Proposed Hospital District shall themselves decide whether or not they wish a Hospital District organized. To do this a vote is taken to record the number for and against the proposal. A two-thirds majority of those voting is required before the proposal is considered approved. Therefore, every ratepayer should take a lively interest in the matter, studying the many points in favor of the scheme and make sure that his vote is cast in support of this important matter of public welfare. Vote "YES."

WHO MAY VOTE?

(a) All persons liable for taxes under the Municipal District Act.

(b) The wife, husband, sons and daughters, at least twenty-one years of age, of such persons and residing with such persons within the Hospital District.

(c) If your name is not on the voters' list, and you are qualified to vote, you may vote by signing a declaration on a form provided under the Act at the poll the day of the voting.

Vote "YES"

WHO WILL MANAGE THE HOSPITAL?

A Hospital Board is elected by the ratepayers which will have the entire management under its control. The Board is responsible to the ratepayers for its actions. Expert supervision is given gratis by the Department of Health of the Province, which maintains a Supervisor and staff who have no other duties than to ensure that Municipal Hospitals are operated in the best interests of the ratepayers and the sick.

WHERE TO VOTE?

The Proposed Hospital District has been divided into Polling Divisions for the convenience of the ratepayers. A ratepayer must vote within his own Polling Division by signing a declaration on Form "A" which will be provided by the Returning Officer. He or she may vote if their name is not on the voters' list.

Letter To The Editor

Editor, Journal.

Dear Sir:

Re letter by Town Booster in October 27th issue of Coleman Journal.

Town Booster infers that he wrote his letter of last week in the interests of sanitation, yet he gets a jolt when he is exposed to his neighbor's attitude. This is the place to find a school, and this is only now, when the danger is past, that he suddenly realizes that he wants to protect the children and the weak.

I have been unable to discover the identity of Town Booster, but I would like to add my voice to his suggestion that an authority should be in constant use for about 21 years has been cleaned out and the old building torn down and replaced by a brand new one. To my knowledge, this is the first time the place has been cleaned out during that time. Town Booster has been passing that place during the past 21 years, and had no fault to find with the appearance or sanitation of these outbuildings, why does he complain now when sanitation has been improved and complies with the town by-laws? We do not believe he wrote this letter in the interests of sanitation or progress.

Town Booster says his article is written to arouse the good citizens to action and make sure something is done. Does he mean that he wants it restored to the condition it was in before I purchased the property and cleaned it out a few months ago for the purpose of destroying the old buildings and improving the sanitation, as they were next to my own building. I have done this. Town Booster is anxious that the children and weak

are protected from such disease-breeding places, and yet for 21 years previous to our ownership the place have been used as the place to find a school, and this is only now, when the danger is past, that he suddenly realizes that he wants to protect the children and the weak.

I have been unable to discover the identity of Town Booster, but I would like to add my voice to his suggestion that an authority should be in constant use for about 21 years has been cleaned out and the old building torn down and replaced by a brand new one. To my knowledge, this is the first time the place has been cleaned out during that time. Town Booster has been passing that place during the past 21 years, and had no fault to find with the appearance or sanitation of these outbuildings, why does he complain now when sanitation has been improved and complies with the town by-laws? We do not believe he wrote this letter in the interests of sanitation or progress.

Town Booster is not a new type. He was here in early times. St. Luke spoke to him saying: "Why beholdest thou that is in thy brother's eye, but perceivest not the beam that is in thine own eye?" Thou hypocrite, cast out first the beam out of thine own eye, and then shall thou see clearly to pull out the beam that is in thy brother's eye."

A. E. Ferguson.

"Sez you!" says the sergeant, "This is the army, Mr. Jones!" "You," says the sergeant, "are just another soldier in the DEMI—this is the army detachment, provisional task force, service of supply, United States Army."

And that's how it was.

The 350 enlisted men of the cast of "This is the Army" on assignment to the Warner Bros. studio for the filming of the Irving Berlin show brought their regular army kit, mess kit and bedding with them. They made their own beds, did their own washing, pressed their own pants, kept their rifles and equipment in spic-and-span order. They set up "Camp Tita" a

mile from the studio, "policed" it and did sentry-go. Revelle was at 6:30 a.m. The men scheduled to shoot sequences that day then marched off to the studio. Those remaining were organized into combat squads and underwent regular training—drill, bayonet practice, obstacle course, combat tactics, lectures. As men returned from work before the cameras they picked up their army chores where they'd left off. They were soldiers who are going off to war. Now that they have accomplished the special mission of their "provisional task force" there were MPs, lieutenants, captains and a major to see that these actors acted like soldiers.

As the sergeant put it: "This is the army, Mr. Jones."

START WORK ON STONE WALL

Work on the new Memorial Park was started this week. A concrete base has been laid across the front of the proposed park. Bad weather having now set in it is uncertain how much work can be accomplished this year.

That old saying, so well known to farm folks... "Plow to the end of the furrow"... so aptly makes our duty plain. And the end of the furrow is beyond the horizon.

Our men on the fighting front have weary, trying days ahead of them. We, on the home front, must not waver nor falter. Our duty is clear, we must keep faith with our fighters. On Canadian farms we must maintain our efforts to produce the foods our fighters and our allies need. That work will reward us with increased incomes. And we must save... to have money to lend to our country to pay the increased costs that this war continues to pile up.

Money invested in Victory Bonds will help to buy the tools of war. They don't last long in action. They must be replaced. It's our job... the home front job... to see to it that our fighting men have everything they need.

Victory Bonds yield a double harvest. They provide our country with money to carry on the war. Later, they will provide money to buy things we will want and need, and which we have done without during the war. Victory Bonds will provide cash to pay for improvements for farm and home... new buildings... new machinery... better stock... new car... furnishings and conveniences for the home.

The Canadian North

DURING THE COURSE OF CANADA'S GROWTH from a group of small settlements on the banks of the St. Lawrence River, to a mighty nation stretching from the Atlantic to the Pacific Oceans, many frontiers have been pushed back and many vast stretches of land have been opened up. Not until the Western provinces were settled, was there opportunity for those who were looking for new land and new experiences. When no more unknown territory lay in the direction, the only remaining frontiers were to the North. There has been development in the Canadian North ever since the days of the early fur traders, but it is only recently that public interest has been fully aroused to the great potentialities of this region, which comprises two-fifths of the total area of the Dominion.

War Awakened New Interest The Northwest Territories, the Yukon, the Hudson's Bay district and New Quebec, formerly called Ungava, make up the territory known as the Canadian North. It covers about 1,500,000 square miles and has a population of 17,000, 5,000 of whom live in the Yukon. The outbreak of war with Japan, and the consequent threat to this continent through the Aleutian Islands, brought about the building of the Alaskan Highway and the Canol project, and through these undertakings much has been learned about the climate and potential value of the North. The Royal Bank of Canada recently published an interesting article dealing with this subject. It draws attention to the fact that the climate, generally considered a barrier to extensive development there, has been proven in recent years to be no serious obstacle, and that in Russia many large communities, including the city of Leningrad, lie in latitudes which we regard as the far North.

Much Activity Is Expected It is expected that there will be great activity in the Canadian North in the years following the war. Present sources of metals are being rapidly depleted and plans are already under way for developing the rich mineral deposits in this region. The Canol project has demonstrated the abundance of oil in that locality and there is also the prospect of securing large supplies of oil from the Athabasca tar sand deposits. Recently considerable interest has been shown in the possibility of certain sections of the North being suitable for agriculture. There are some 11,000 farmers in the Peace River country and they cultivate over 1,000,000 acres of land. It has been demonstrated that wheat and other grain crops, as well as some small fruits, including crabapples, can be grown with success in many northern districts even at points within the Arctic Circle. Authorities feel that at present it is unwise to encourage large scale agricultural development in this area, due to inaccessibility to markets and similar disadvantages, but there is little doubt but that in the years to come Canada will have a great new mining and agricultural industry in these northern regions.

Allied Governments Hear Nazis Seeking Flying Fields Outside Germany

News has reached Allied Governments that the Nazis are already planning to defeat restrictions on post-war German air development—establishing airlines in countries other than Germany.

Information has been passed on that secret inquiries have been made in two neutral countries by German interests seeking investment in flying grounds and inquiring into the possibility of financing new airfields which would form the basis of a new Luftwaffe.—London Daily Sketch.

Relaxing The Rules

More Gaely in Britain Is Promised For This Winter

Another step towards a brighter winter Britain is promised this winter.

Dances, which for the past five years have had to end before midnight, will probably continue into the early hours—with the approval of the majority of the police chiefs and licensing magistrates.

Police chiefs welcome the opportunity of allowing a little more gaely to come back into the lives of millions of people for whom dancing was the principal peace-time pleasure.

The first move was made by Darwen (Lancashire) magistrates, who granted an extension for a works dance until 2 a. m.

This is the first time in the war that the young people of this cotton town, with a population of 37,000, have been able to go on dancing after midnight.—London Daily Mail.

SOMETHING HE MISSED

Although he has travelled about 6,000 miles in the last 33 years, William Fisher, Omaha, Neb., locomotive engineer recently had his first glimpse of the ocean. "I've travelled enough to have gone around the world scores of times but this is the first I've ever set eyes on salt water," he said.

Price Control And Rationing Information

Q—I did not obtain ration book number five during the last distribution week October 14 to 21. What shall I do in order to get my new book?

A—Any time after November 6 you can get your new book. Fill out the "K" coupon sheet in ration book 4, giving your name and address on one side and the book number on the other side of the coupon. Do not remove this sheet. Take your book to any branch office of the ration administration and you will get your number five ration book. If there is no branch office in your district, take your number four book to the local ration office.

Q—I am planning on selling my grocery store and would like to know if it is necessary to make a report of my rationed commodities to the nearest ration officer prior to the sale.

A—if you are selling your grocery business you should contact the nearest ration officer prior to the sale, advising the officer in charge the quantity of rationed goods and coupons on hand and the number of coupons in the bank. In some cases grocery stores have changed hands and there has been considerable delay in making the required reports on rationed goods.

Q—Is canned grapefruit now placed on the ration list?

A—Yes, canned grapefruit in glass containers returned to the list of rationed commodities on October 15. Its ration value is one valid coupon for 20 ounces. Grapefruit juice has not been rationed at any time.

Q—I have received my ten "P" canning sugar coupons in ration book three. Is it necessary to keep this ration book along with book four and my new book?

A—The only valid coupons in ration book three are the "P" canning sugar coupons. You can keep book ten, and if you have used these coupons there is no further use for this number three book.

Please send your questions or your request for the pamphlet "Consumer Control—The Blue Book" the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

The Royal Navy

To Have Own Service Of Scientists And Engineers

The Royal Navy is to have its own permanent service of scientists and engineers engaged on research, experimental design, and development.

The personnel now enrolled in the Admiralty scientific, technical, and chemical pools are to be reorganized as the Royal Naval Scientific Service.

Security considerations permitting, members will contribute to the discussions of the learned institutions, enabling them to further the reputation of the Navy for high quality scientific and engineering work, and to contribute to advances in these subjects for the benefit of the nation as a whole.

The Service represents an important step towards achieving the aim that every ship putting to sea shall in its conception and equipment be the best that modern science and engineering can produce, writes a naval correspondent.

When the war began there were 600 members of the three pools, now amalgamated. Since then, it has increased by 3,000. What the post-war strength will be is not yet known, but it will not fall to the pre-war mark.

All the fruits of Admiralty research and development have been shared with the United States.

DECLINE OF FRANCE

Pertinax, the French journalist, believes that the main cause of France's decline is that it has been ruled by second-rate statesmen ever since the days of Clemenceau and Poincaré. Undoubtedly the times now call for strong and capable leadership in France. Mayde de Gaulle, military man though he is, will be the one to give it.—Brookville Recorder & Times.

CANADIAN RESEARCH

Dr. C. J. Mackenzie, president of the National Research Council, Ottawa, said that first place in any comprehensive scheme of post-war development of Canadian research should be given to a system of scholarships and university grants.

SHOWED HIS GRATITUDE

A man charged with burglary was acquitted by a jury. The masterly way in which counsel for the defence handled the matter impressed the jury, and apparently it impressed the defendant, too. A few days later the barrister received a package by post.

It was a valuable print, and was accompanied by this note: "Dear Sir—I was doing a job the other night and seen this. Thought you might like it."

Appleford PAPER PRODUCTS

THE THRESHING OF GRAIN ON PRAIRIE FARMS HAS NOW BEEN PRACTICALLY COMPLETED

WINNIPEG.—The song of the threshers across the prairies has been stilled, and today farmers are busy hauling grain to rural elevators, destined for eventual movement to the liberated areas of Europe.

A crop of more than 400,000,000 bushels of wheat, and millions of bushels of coarse grains, is moving to market with threshing practically completed in all three prairie provinces.

Warm, sunny weather has aided the farmers in their fall work, and thousands of farm laborers, many from Ontario, have been released for other essential jobs.

More than 100,000,000 bushels of wheat have been moved from farms to prairie elevators for shipment to lakehead ports, and all available freight cars are in use to continue the steady flow eastward.

Threshing is complete in Manitoba with the exception of the Red River valley areas where late summer floods took toll of the crop. The northwestern section of Saskatchewan, where crops were heavy and late, has some threshing yet, while in Alberta field work has been completed except for about five per cent in central districts.

Most of the 2,000 farm workers from eastern Canada and the prairies have left Alberta for their homes in Saskatchewan, Manitoba and Ontario. Soldiers, sailors and airmen detailed for farm duty have returned to their service units.

Heavy demands for Canadian wheat will be coming from overseas, and western farmers have been asked by the Canadian wheat board to speed grain to market to meet requirements of the liberated countries.

For the first time in five years Belgium is seeking Canadian wheat, the initial inquiry being for 750,000 bushels, and Winnipeg grain exchange reports indicated that Holland soon would be in the market, wanting grain for its peoples liberated from German occupation.

NEW SPEED RECORD

TORONTO.—A Miller, an official of the de Havilland Aircraft of Canada, Limited, said that Jim Follett, the company's chief test pilot, set a new speed mark when he flew a Macquito from Fort William to Toronto, a distance of 610 ground miles in an hour and 23 minutes. The plane's average speed was 410 miles per hour.

Your Duty—Buy Victory Bonds

CHURCHILL SAYS GOVERNMENT HAS NOT CHANGED ITS POLICY OF UNCONDITIONAL SURRENDER

LONDON.—Prime Minister Churchill reiterated to the House of Commons that "unconditional surrender in the sense of no bargaining with the enemy is still the policy of the government."

He suggested in answer to a question from the floor, that the house should bear in mind also the three-power declaration of last May 12 to Axis satellites, in which they were warned to quit Germany.

The prime minister nevertheless declined to engage in a foreign affairs debate, declaring it would be unwise to go into details on delicate international matters "on the spur of the moment." There would be an opportunity for debate after his report on his Moscow mission, he said, but added he hoped it would be short.

He left unanswered questions as to how unconditional surrender was to be reconciled with former enemies becoming "apparent Allies" and as to whether Nazis who surrendered unconditionally would be given government posts in Germany. Such matters, he said, would have to be settled among the principal Allies.

"I do not think there is any reason for alarm," he added.

Earlier, Richard Law, minister of state, told the house Britain and Russia had made no decision during the recent Moscow talks on respective zones of influence in the Balkans.

Although Bulgaria has declared war on Germany, he said, the country is still technically at war with the Allies in the sense that terms are still being discussed. He added that Bulgaria could not yet be recognized as a co-belligerent.

WAR SITUATION

Germany Short Of Men To Defend Her Western Frontier

ALLIED SUPREME HEADQUARTERS, Paris.—Germany, with not more than 500,000 men left to defend her western frontier, already has suffered a worse defeat in the west than was inflicted upon the Kaiser's armies in 1918, yet is showing no signs of an internal collapse.

At present the Germans have well under 100 depleted divisions with which to defend the long front from the North sea to Switzerland. At the end of the last war they had about 100 good divisions in the field on the western front, and with no great Russian armies at their back.

In all, 36 German divisions were destroyed by Allied armies in France. Many of them have been reformed under their old numbers even though only a few hundred members might have escaped to Germany.

Replacements are generally of a poorer quality. Recent prisoners have included a boy of 12, a man of 78, a soldier with artificial legs and one with a glass eye.

Prisoners captured by the Allies since June 6 alone total 605,000, and the casualties being inflicted on the Germans at the present time are estimated at 4,000 daily.

INTERED BY SWISS

Empire Soldiers Recently Released Are Going Back To Britain

A NORTHWEST BRITISH PORT—Britain welcomed home 1,118 service men repatriated from Switzerland where they had been interned after escaping from German and Italian prison camps.

The men were the first home of more than 5,000 Empire soldiers and airmen released in recent weeks by the Swiss after being interned for periods ranging from months to years.

A small number of Canadians are among the 5,000 but it was not known immediately whether any of them were with the group which reached here.

FINEST TRAINED

MONTRÉAL.—The Third Canadian Division, which participated in the invasion of France on D-day, was the finest trained body of men ever to be taken into an assault operation, Maj.-Gen. R. L. F. Keller, former leader of the division, said in an address here.

NOT YET OVER

Nazis Likely To Renew U-Boat Campaign During Winter

VANCOUVER.—Despite apparent absence of Nazi submarines from the Atlantic, the enemy's U-boat campaign is not yet over, Rear Admiral V. G. Brodrue, C.B.E., officer commanding, Pacific Naval Command, told a Rotary Club meeting here.

"No doubt our friends the lousy Germans have been thinking things over. I should not be a bit surprised if the result of their thinking comes to the surface during the winter months—the worst period that we have to contend with."

AIR CREWS ONLY

Two All-Canadian Transport Squadrons Being Formed in India

MONTRÉAL.—Air Chief Marshal Sir Frederick Bowhill, air officer commanding the R.A.F. transport command, said in a press interview that two all-Canadian squadrons for transport action against the Japanese in Burma and other far eastern theatres were being formed in India.

Sir Frederick did not give any other details and said the squadrons would be completed shortly and consisted only of air crews.

ARMY OVERSEAS

LONDON.—Canadian military headquarters disclosed that the Canadian army overseas is comprised of 68.5 per cent. privates, or their equivalent, 21.6 per cent. non-commissioned officer, 7.2 per cent. officers and 2.7 per cent. nursing sisters.

Smoke Bomb Mortar

The 50,000th two-inch smoke bomb mortar made for use on Canadian Grizzly tanks and American Sherman tanks being demonstrated by Major-General F. F. Worthington to workers who while they had built all these mortars had never seen one in action. Shown in the above group are Major-General F. F. Worthington, C.B., M.C., M.M.; Audrey Boulton, Mrs. Elsie Freedman, R. H. Jackson, President and General Manager of Canadian Elevator Equipment Co., Ltd., and standing at back, Douglas Hatton, Superintendent of Plant.

PARIS.—Louis Renault, 63, head of the Renault Motor Co., who had been charged with collaborating with the Nazis, died at a hospital here.

Norway which has lost 400 ships of the Renault Motor Co., who had 3,000 seamen in the war, still has the world's fourth largest merchant fleet.

Senior Officer Retires

—R.C.A.F. Photo
Wing Officer Willa Walker, M.R.E., senior staff officer of the R.C.A.F. Women's Division, whose retirement from the service is announced by Air Force Headquarters. Daughter of Col. and Mrs. A. Magee of Montreal, Wing Officer Walker was a member of the first class of 150 recruits trained as airwomen in the fall of 1941. She has held her present position since the summer of 1943. Squadron Officer Winnifred M. Taylor of Toronto will succeed her in office.

Major-General Keller At Press Conference

—Canadian Army Photo
Major-General R. F. Keller, C.B.E., formerly commander of the Canadian Third Division, is shown above at a press conference held in the Windsor Hotel shortly after his arrival in Montreal, where he spoke in favor of the 7th Victory Loan. Wounded in the Normandy fighting, Major-General Keller returned to Canada aboard the hospital ship Lady Nelson. In the above picture, left to right, are Major-General A. Ernest Walford, C.B.E., M.M., D.S.O., newly appointed Adjutant General of the Canadian Army; Major-General Keller; Lieutenant-Colonel G. Yates, Acting Director of Public Relations (Army).

LARGE SHIPMENTS OF WHEAT ARE NEEDED TO MEET DEMANDS FOR AREAS IN LIBERATED EUROPE

ROAD TO BERLIN

Great Tribute To Canadian Soldiers For Magnificent Work

LONDON.—"Britain should be as proud of the Canadians fighting for the Scheide estuary as of her own sons," War Correspondent Noel Monk wrote in the London Daily Mail.

"I don't think the people of Britain or of the Empire for that matter fully realize the magnificent job the Canadians have done and are doing in France, Belgium and Holland, or the significance of the task the Allied command has assigned to them—the opening up of the port of Antwerp," said Monk who has recently been assigned to the 1st Canadian Army.

"There will be no Berlin for us this winter, militarily speaking, if the Canadians' present operations are not successful. It is a great tribute to the Dominion of Canada that her sons should be given the key role in this operation."

"From the day the first convoy hauls into Antwerp, I believe you can really start reckoning when the war will end."

FOOLISH RUMOR

TORONTO.—Oil Controller G. R. Cottrelle said in a statement that persistent rumor that gasoline rationing was to be lifted or that the coupon value was to be raised from three to five gallons were "foolish and started by irresponsible persons."

WINNIPEG.—Western farmers have been asked to help the Canadian wheat board in meeting demands for wheat and flax, needed at the eastern seaboard for shipment to the liberated areas in Europe.

Wheat bins at Lakehead terminals must be filled and every available freight car is being sent west to handle grain shipments.

The movement from country elevators has been heavy this fall, far above a year ago, but large shipments have been made from the ports of Fort William and Port Arthur. There is only about 25,000,000 bushels of wheat in Lakehead terminals, although the movement from country elevators since Aug. 1 totalled 90,000,000 bushels.

"During the next five weeks a large quantity of wheat will have to be shipped to the Lakehead from the eastern half of the prairie provinces in order to secure the maximum number of trips to the lake port for each car in service," said a statement by the wheat board.

"From the day the first convoy hauls into Antwerp, I believe you can really start reckoning when the war will end."

Farmers have been asked to concentrate on shipment of wheat and flax. Shipments of barley to Lakehead ports have been banned while the movement of rye and oats will be held back until close of navigation.

THREE ROUTES IN CONNECTION WITH COMMERCIAL AIR SERVICE OF CHIEF INTEREST TO CANADA

MONTREAL.—Military air transport routes between the nations of the British Commonwealth, which was being left out of a scheme to may lead to post-war commercial services, have been discussed in four main groupings in which each dominion's interest varies. The four groupings are the north Atlantic, the trans-Pacific, the Britain to Australia and New Zealand service, and the Canada to South American service, in which links with several British colonies would be involved, such as Bermuda and the British West Indies.

Canada's chief interests lie in the trans-Atlantic, trans-Pacific and western hemisphere services. Neither Australia nor New Zealand are interested in participating in services across the Atlantic, and Canada is not directly interested in the service from Britain to the South Pacific via India. South Africa's main interest is the Britain to Cape Town service. The patchwork of British Commonwealth air transport services is being worked out in greater detail than ever before at the Montreal conference. The report that a hitch has occurred, was scouted by conference officials. "A tissue of lies," was the

given in the press on Montreal conference discussions, it is learned that no obstacle has been encountered to prevent an understanding by which air transport facilities of each British nation will be available on a reciprocal basis at points where interests of each country overlap. On the trans-Pacific route, the facilities of Canada, Australia, New Zealand and Britain will likely be co-ordinated and the service set up shortly.

On the north Atlantic, four agencies represented at the Montreal conference already operate services for military purposes. There is no overriding agreement, but there is full co-operation where it is required. Two Canadian agencies operating aircraft over the Atlantic are the R.C.A.F. transport command and T.C.A. Two British services are R.A.F. transport command and British Overseas Airways Corporation.

THREE-POWER TALKS

Conference On World Security May Be Held Next January

WASHINGTON.—Edward Stettinius, under-secretary of state, disclosed that the United States government hopes for a United Nations conference next January on world security, possibly following a Churchill-Stalin-Roosevelt meeting late this year to complete the Dumbarton Oaks plan.

The January conference, Mr. Stettinius speculated, may be preceded by a Pan-American meeting for the purpose of discussing hemispheric questions.

CHINESE RECOGNITION

CHUNGKING.—China, following the lead of Great Britain, Canada, Australia, the United States and Soviet Russia, has formally recognized the De Gaulle regime as the provisional government of France.

TIRPITZ MOVED AGAIN

STOCKHOLM.—The Russian advance against northern Norway has compelled the Germans to move the battleship Tirpitz, which is now on her way to Kiel, the Stockholm Tidningen reported.

Mrs. Fred Dionne will leave this week for Taber, where she will join her husband, who has been employed at that town.

Mrs. J. Kravski and daughter, of Dewry, BC, are visiting the former's daughter, Mrs. John Vrskovsky, and Mr. Vrskovsky.

Neo Chemical Food

LOCAL NEWS

The CGIT "Peppy Pals," under the chairmanship of Ketta Ash, held a party in the United church club room on Tuesday evening, a most enjoyable social evening being enjoyed by all.

The many friends of Mrs. G. A. Kettyley will be pleased to know that she is showing improvement, following an operation at the Holy Cross hospital on Monday last. Mrs. Kettyley entered the hospital last Friday.

FOR SALE IN WILLOW DRIVE
Good 6-room house with garage and chicken house, including several acres of hay and some good farm land and pastures. Also some timber. Excellent small farm proposition. Phone 699.

Mr. and Mrs. DeKlyn and son Joe will leave this week for the new home they have purchased in the New Westminster, BC, district. They have been residents of Coleman for many years, and a few weeks ago journeyed to the coast, where they inspected a few places before deciding on the purchase of a property which would now their new home. Their many friends wish them happiness and prosperity in the milder climate of the west coast.

Mrs. B. Gentile, senior, returned home on Tuesday from Fort Langley, where she has been the guest of her son and daughter-in-law for the past two months.

CONTRIBUTE \$1.00 to Ladies Auxiliary and you may own one of two improved farms at Moosomin, Sask. First, half section, cultivated, good buildings, well, windmill, second, half section, cultivated, other half fenced for pasture. No hailstones or drought. Proceeds for War Services. Tickets \$1.00, or get two free for selling a book. Write Ladies Auxiliary, B. E. S. L., Box 124, Strasbourg, Sask. Registered under War Charities Act.

A miscellaneous shower was held at the home of Mrs. Laddie Krish on Sunday, Oct. 22, in honor of Miss Marie Hammer, bride-elect. Forty guests were present. Games were played, wine and beer served. Mrs. P. Failler and Mrs. M. Julian. Following a dainty luncheon served by hostesses, Mrs. L. Krish, Mrs. F. Rayman, Mrs. W. Hammer, Miss Alberta Krish, and Miss Irene Hammer, the guest of honor was presented with many lovely gifts for which she ably expressed her thanks. The party concluded with the singing of the old favorite, "For she's a jolly good fellow."

Petty Officer Denis DeMartin is pursuing a furlough with his parents.

Mr. and Mrs. C. Easton, who have been residing at Calgary for several months, are visiting the former's parents here, Mr. and Mrs. A. Easton. They are enroute to Vancouver, where Mr. Easton is an employee of the Boeing Aircraft Co. Ltd.

A surprise birthday party was held at the home of Mrs. B. Nakoff on Friday, Oct. 27, in honor of Catherine, who celebrated her thirteenth birthday. Twenty-five guests were present. Singing, dancing and games were enjoyed, following which all sat down to a beautifully decorated supper table. The honored guest was presented with a beautiful gift from her friends.
